CONTENTS OF VOLUME 392

November 1987

EDEN G.J. & HANSON M.A. Maturation of the respiratory response to acute hypoxia in the newborn rat. 1

EDEN G.J. & HANSON M.A. Effects of chronic hypoxia from birth on the ventilatory response to acute hypoxia in the newborn rat. 11

CHOW Edwin & HUIZINGA Jan D. Myogenic electrical control activity in longitudinal muscle of human and dog colon. 21

BURKE W., COTTEE Lynne J., HAMILTON Kim, KERR Lorraine, KYRIACOU C. & MILOSAVLJEVIC Marianna Function of the Y optic nerve fibres in the cat: do they contribute to acuity and ability to discriminate fast motion? 35

DAHMS Virginia, PROSSER C. Ladd & SUZUKI Nagao Two types of 'slow waves' in intestinal smooth muscle of cat. 51

GOLDMAN Y.E., MCCRAY J.A. & RANATUNGA K.W. Transient tension changes initiated by laser temperature jumps in rabbit psoas muscle fibres. 71

LENG G. & SHIBUKI K. Extracellular potassium changes in the rat neurohypophysis during activation of the magnocellular neurosecretory system. 97

SHIMADA Tadahito Factors affecting the microclimate pH in rat jejunum. 113

EDSTRÖM Lars & LARSSON Lars Effects of age on contractile and enzyme-histochemical properties of fast- and slow-twitch single motor units in the rat. 129

MCCORMICK David A. & PRINCE David A. Actions of acetylcholine in the guinea-pig and cat medial and lateral geniculate nuclei, *in vitro*. 147

SCHNEIDER M.F., SIMON B.J. & SZUCS G. Depletion of calcium from the sarcoplasmic reticulum during calcium release in frog skeletal muscle. 167

CROOK J.M., LEE B.B., TIGWELL D.A. & VALBERG A. Thresholds to chromatic spots of cells in the macaque geniculate nucleus as compared to detection sensitivity in man 193

GORDON T., KELLY M.E.M., SANDERS E.J., SHAPIRO J. & SMITH P.A. The effects of axotomy on bullfrog sympathetic neurones. 213

HUGHES D., MCBURNEY R.N., SMITH S.M. & ZOREC R. Caesium ions activate chloride channels in rat cultured spinal cord neurones. 231

AMÉDÉE T., MIRONNEAU C. & MIRONNEAU J. The calcium channel current of pregnant rat single myometrial cells in short-term primary culture. 253

COBBETT P., INGRAM C.D. & MASON W.T. Sodium and potassium currents involved in action potential propagation in normal bovine lactotrophs. 273

KOTSIAS B.A. & VENOSA R.A. Role of sodium and potassium permeabilities in the depolarization of denervated rat muscle fibres. 301

EDGLEY S.A. & LIDIERTH M. The discharges of cerebellar Golgi cells during locomotion in the cat. 315

GARLAND C.J. The role of membrane depolarization in the contractile response of the rabbit basilar artery to 5-hydroxytryptamine. 333

GILLO Boaz, LASS Yoram, NADLER Etta & ORON Yoram The involvement of inositol 1,4,5-trisphosphate and calcium in the two-component response to acetylcholine in *Xenopus* oocytes. 349

SALIM Aws S. Reserpine, vagal adrenergic activity and stress-induced acute gastric mucosal injury in the rat. 363

AL-AMOOD W.S. & LEWIS D.M. The role of frequency in the effects of long-term intermittent stimulation of denervated slow-twitch muscle in the rat. 377

LACEY M.G., MERCURI N.B. & NORTH R.A. Dopamine acts on D_2 receptors to increase potassium conductance in neurones of the rat substantia nigra zona compacta. 397

BENNETT J.A., MCWILLIAM P.N. & SHEPHEARD S.L. A γ-aminobutyric-acid-mediated inhibition of neurones in the nucleus tractus solitarius of the cat. 417

GANITKEVICH V.YA., SHUBA M.F. & SMIRNOV S.V. Calcium-dependent inactivation of potential-dependent calcium inward current in an isolated guinea-pig smooth muscle cell. 431

KARIM F., POUCHER S.M. & SUMMERILL R.A. The effects of stimulating carotid chemoreceptors on renal haemodynamics and function in dogs. 451

CLOUGH Geraldine & MICHEL C.C. The effects of chemical fixation on the permeability of frog mesenteric capillaries. 463

BRADLEY D.J., PATON J.F.R. & SPYER K.M. Cardiovascular responses evoked from the fastigial region of the cerebellum in anaesthetized and decerebrate rabbits. 475

FIELD Anne C. & JENKINSON D.H. The effect of noradrenaline on the ion permeability of isolated mammalian hepatocytes, studied by intracellular recording. 493

CAPADAY C. & STEIN R.B. Difference in the amplitude of the human soleus H reflex during walking and running. 513

FEDIDA D., NOBLE D., RANKIN A.C. & SPINDLER A.J. The arrhythmogenic transient inward current i_{TI} and related contraction in isolated guinea-pig ventricular myocytes. 523

AKAIKE N., MARUYAMA T., SIKDAR S.K. & YASUI S. Sodium-dependent suppression of γ-aminobutyric-acid-gated chloride currents in internally perfused frog sensory neurones. 543

QUANDT Fred N. Burst kinetics of sodium channels which lack fast inactivation in mouse neuroblastoma cells. 563

SHRAGER Peter The distribution of sodium and potassium channels in single demyelinated axons of the frog. 587

KAY Alan R. & WONG Robert K.S. Calcium current activation kinetics in isolated pyramidal neurones of the CA1 region of the mature guinea-pig hippocampus. 603

ASHIDA T. & BLAUSTEIN M.P. Regulation of cell calcium and contractility in mammalian arterial smooth muscle: the role of sodium–calcium exchange. 617

MORIMOTO Akio, MURAKAMI Naotoshi, MYOGIN Takahito, TAKADA Mitsuaki, TESHIROGI Shyuichi & WATANABE Tatsuo Separate mechanisms inside and outside the blood–brain barrier inducing metabolic changes in febrile rabbits. 637
